Dear Randy,

I am so happy with the end result of my remodeling. It looks as if nothing has been done, and was always that way – seamless.

Throughout the construction, your crew was on time, cleaned up daily and behaved in a professional manner.

I really appreciate you taking the time before we even started to point out all the potential problems, hazards and headaches. This gave me a realistic view of what was to come and therefore I had few unexpected surprises.

When people come over to see the "remodel", they always say, "What did you have done?" That's the best compliment, when they can't notice.

I would recommend your company to anyone!

Sincerely,
