Randal G. Winter Construction
24257 San Fernando Road
Newhall, CA 91321

Dear Randy,

I am truly sorry that it has taken me this long to write this letter.

That said, the construction project went as well as you said it would and it was finished on time, on budget and fully complete. Normally things happen that make the 4 week project turn into a 3 month ordeal. Quality, workmanship and the finished project was superb.

The quality of materials, workmanship and professionalism was above and beyond. The crew was respectful of our property, to Gail and me through out the whole project. Everyone showed up on schedule, on time and left the house livable each night. That really meant a lot to us. Bubba, (our dog), was happy to.

Without a doubt I would recommend your company for any home improvement project. Randy was always approachable and was in control of our project at all phases. If you can put floor over the living room and make it look like it has always been there, any job could be given to you without question. As you know, we plan to upgrade our kitchen and when it is time you will be contacted.

Sincerely,

Bryan Moss
